Digitally Manufactured Housing

Larry Sass
MIT

Effective computing

Machining that is computer controlled

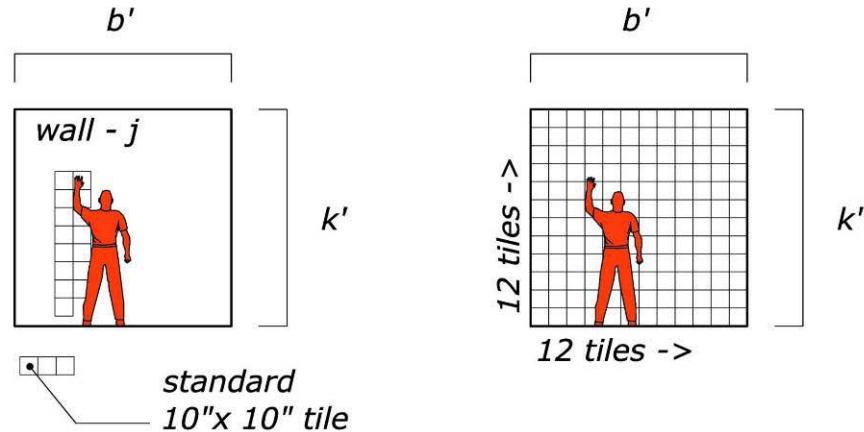

Assembly Only construction sites

Customized home delivery for culturally sensitive design

- New Orleans – 109,000 House lost
- 7 years @ 75/day
- Mass Customize 75 designs
- Mass Produce

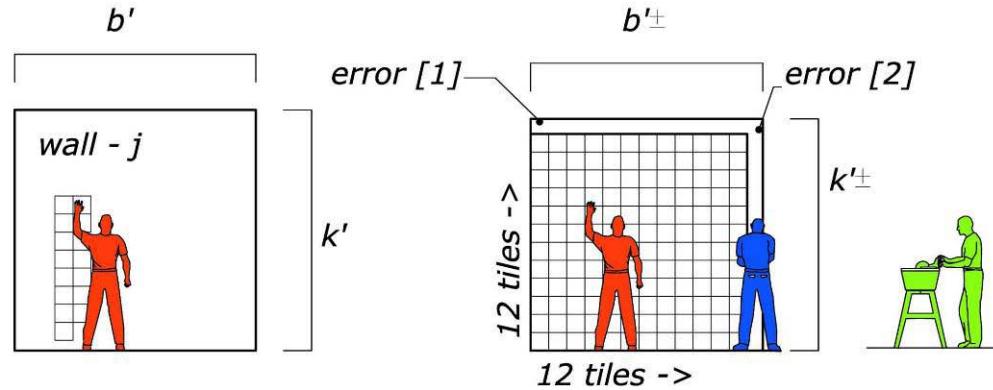

WALL [A]

$$144 \text{ tiles} \times a = \text{cost}$$

WALL [B]

$$144 + (25 \text{ tiles} \times a (m \& c)) = \text{cost}$$

Cost of Error

House Construction = **Labor** + Materials

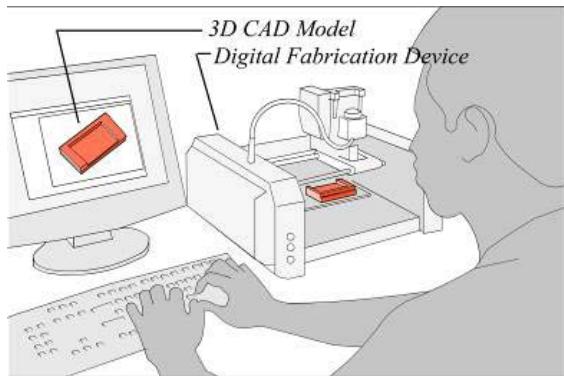

Labor [A] = - **Assembly** only

Labor [B] = **Assembly** + **Measure**+ **Cut**

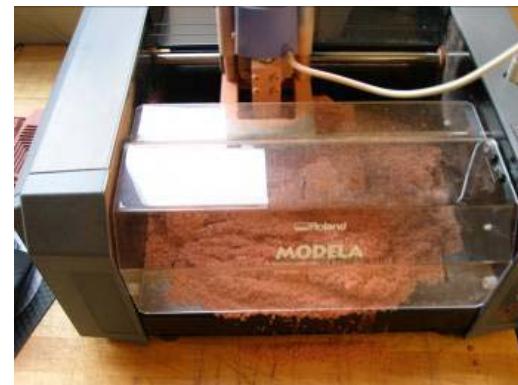

House Construction = (*nLabor* x [A]) + (*nLabor*x [B]) + Materials

Vision of Materialization

[1]
CAD

[2]
machine & material

[3]
assembly

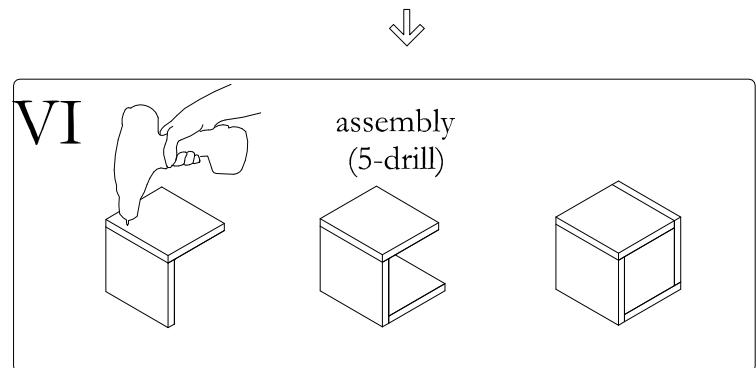

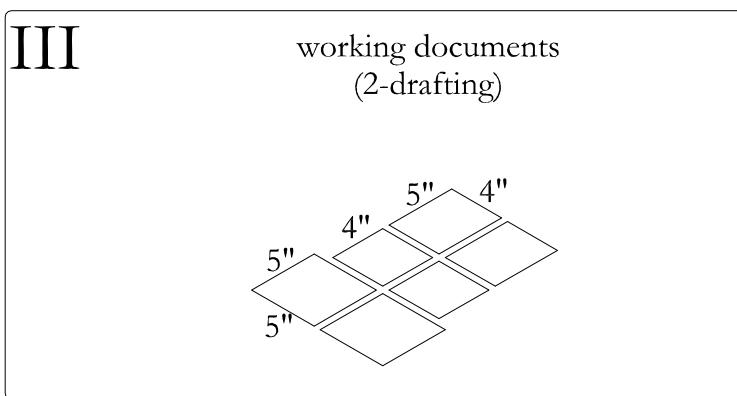

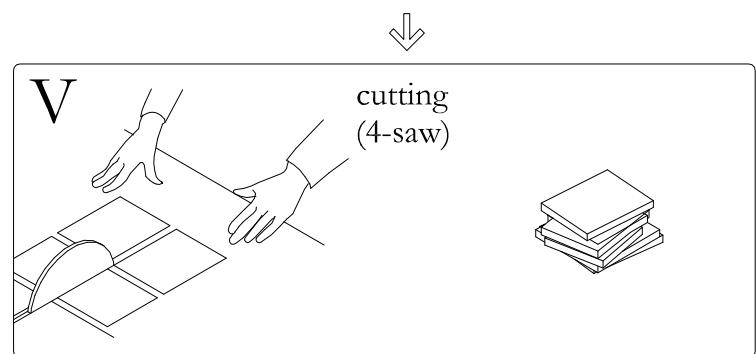

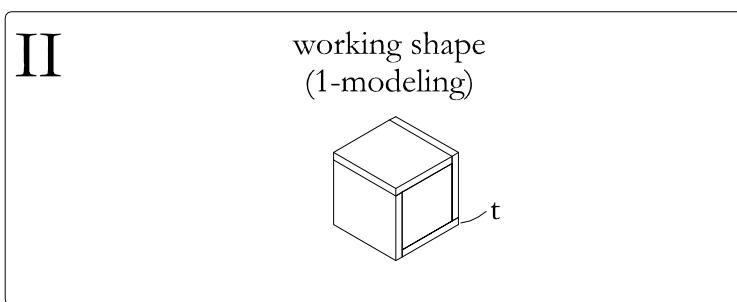

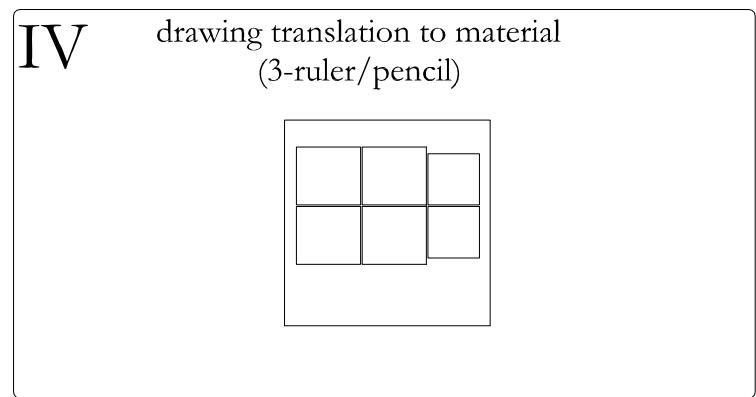

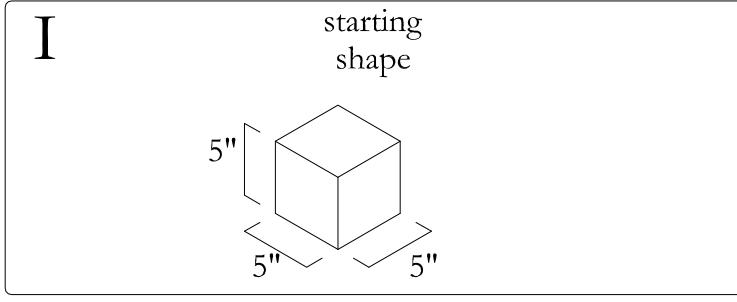

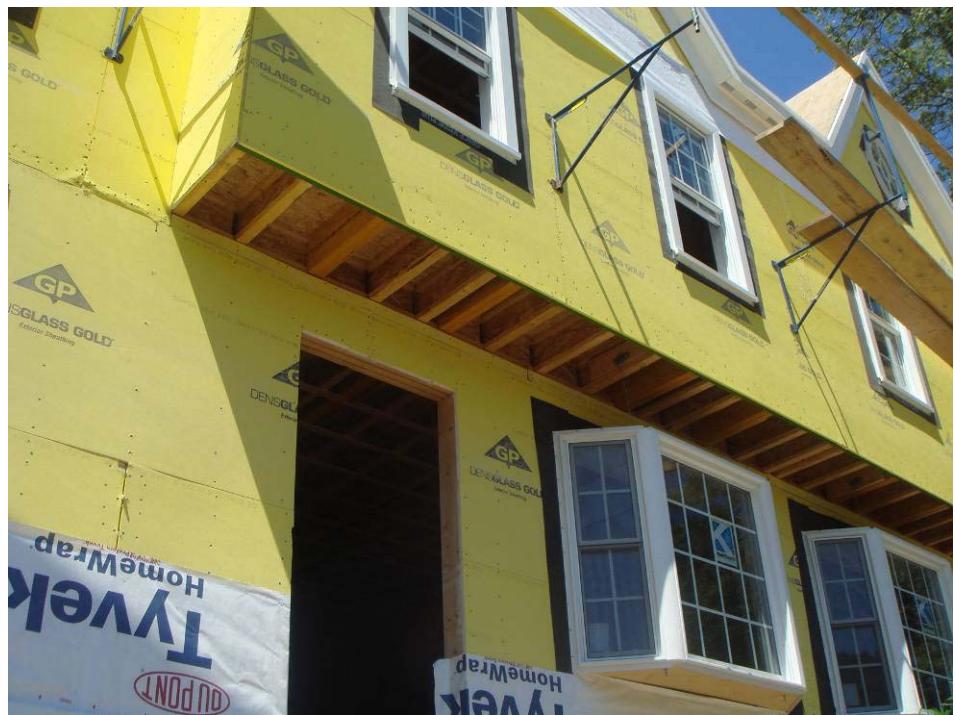

Machine
Measuring
(MIT)

Machine
Cut or Build

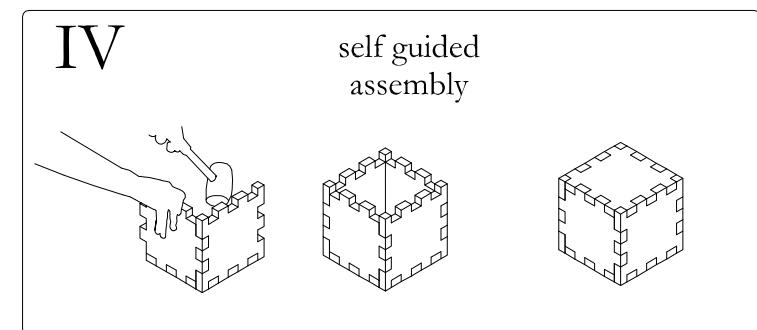

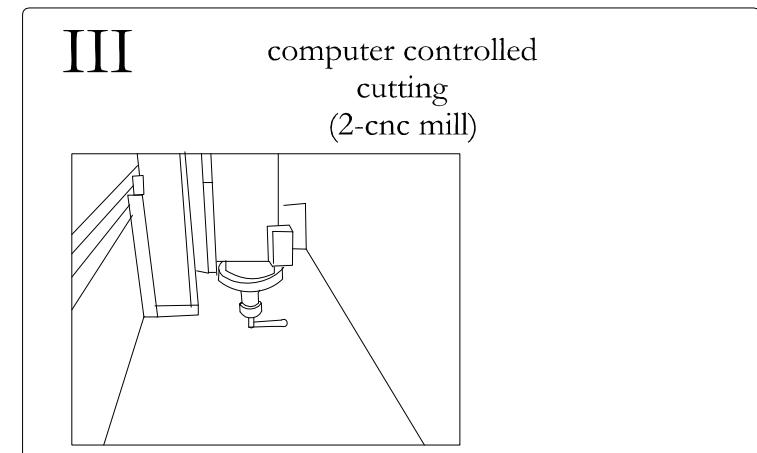

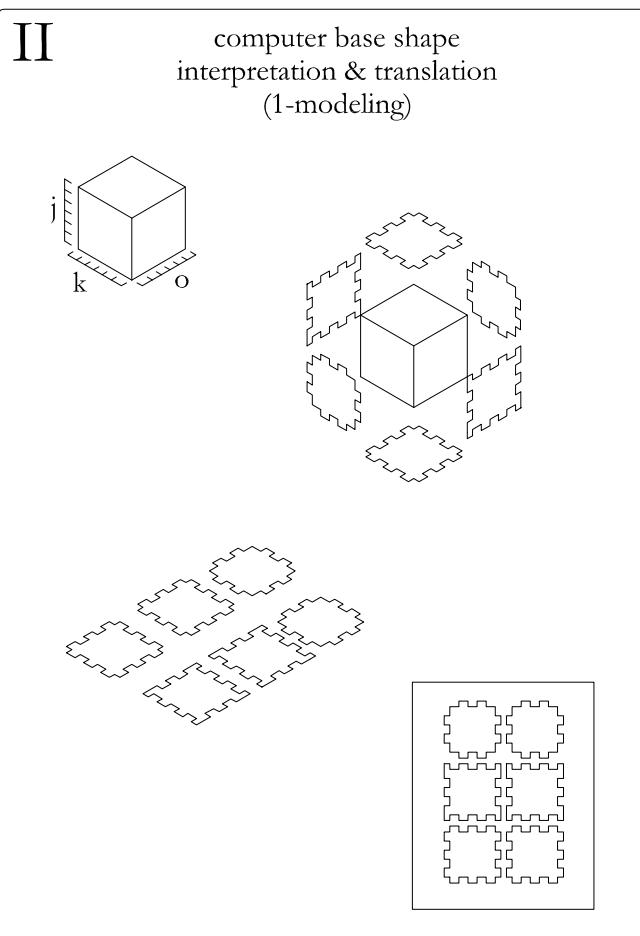

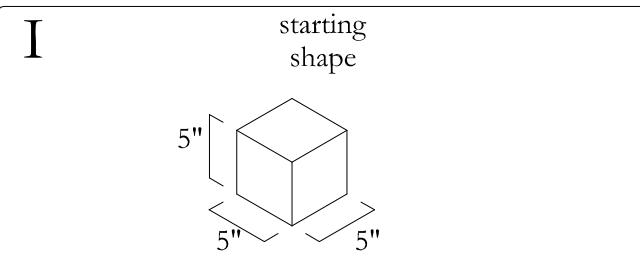

Machine
Assembled
(ETH)

Analogue

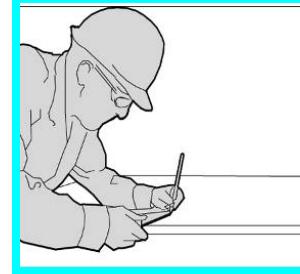

Digital

Waste in Design & Construction

- Factory based construction
- Hand Operations
- High Energy
- Imprecise measuring
- Imprecise cutting
- Imprecise assembly

Instant House

Supports Non-Western Design & Construction

Marcel Botha
Nic Rader
Victoria Lee
Maggy Nelson
Diana Nee

Universal Technologies

Fab Lab MIT/India

Fab Lab MIT/India

Design System

Integral Assemblies
(Plywood)
Summer 2005

(a)
Box Joinery

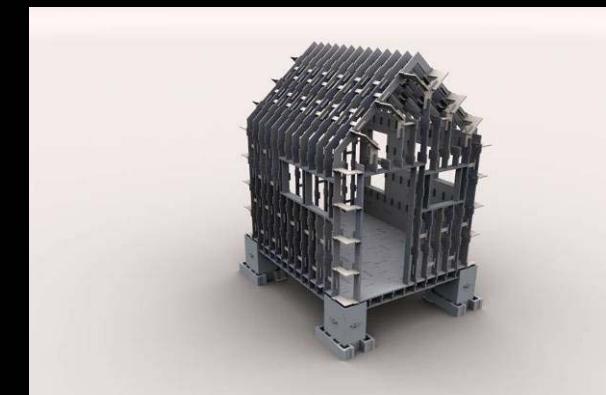

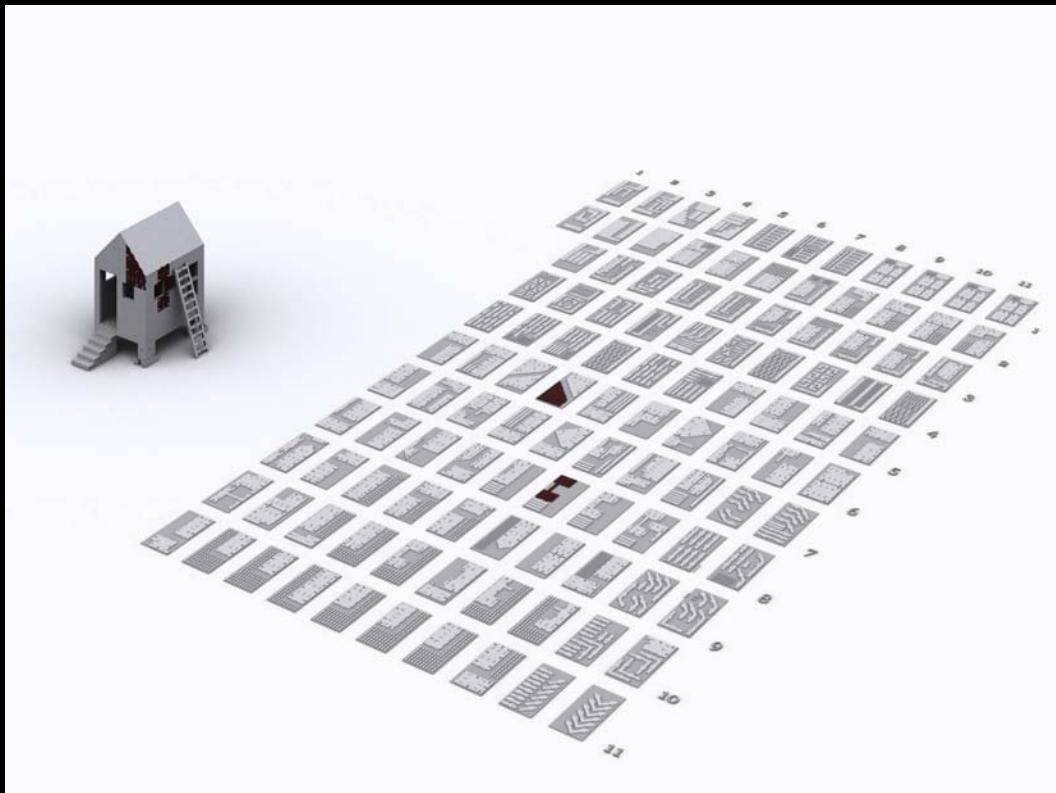

(b)
Dado Joint

(c)
Biscuit Joint

AutoCAD
Design Model

AutoCAD
Construction Model

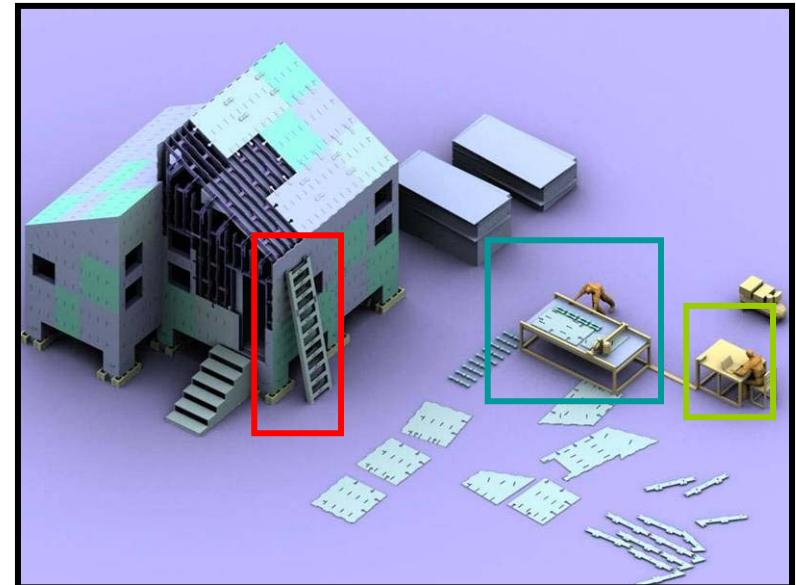

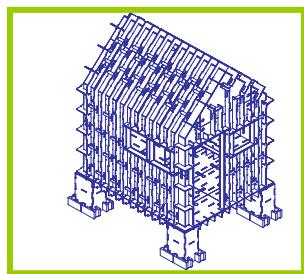

Digitally Fabricated

- Outdoor or Indoor Digital Factory
 - Any Shape
 - Machines Scale
 - Complexity is in the cutting
- Advantages
 - Design models used for cutting
 - Controlled manufacturing
 - Low Energy (Flat packed)
 - Controlled waste
 - Precise
- Impact
 - Broad approach to housing
 - Luxury or low cost housing
 - Process works with many materials

What is digital fabrication

Computer model
"Precision measuring"

"Laser cutting"
Precise Cutting in Studio

"Prototype"
Error Detection & Correction

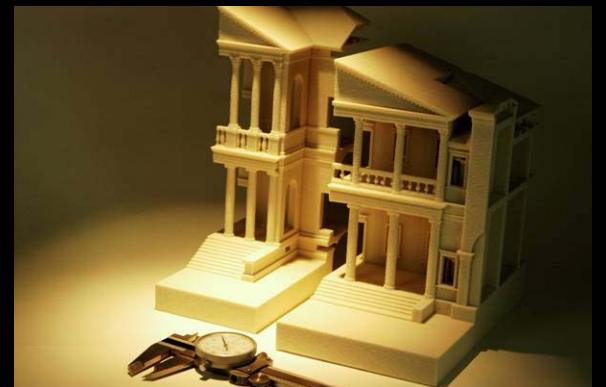

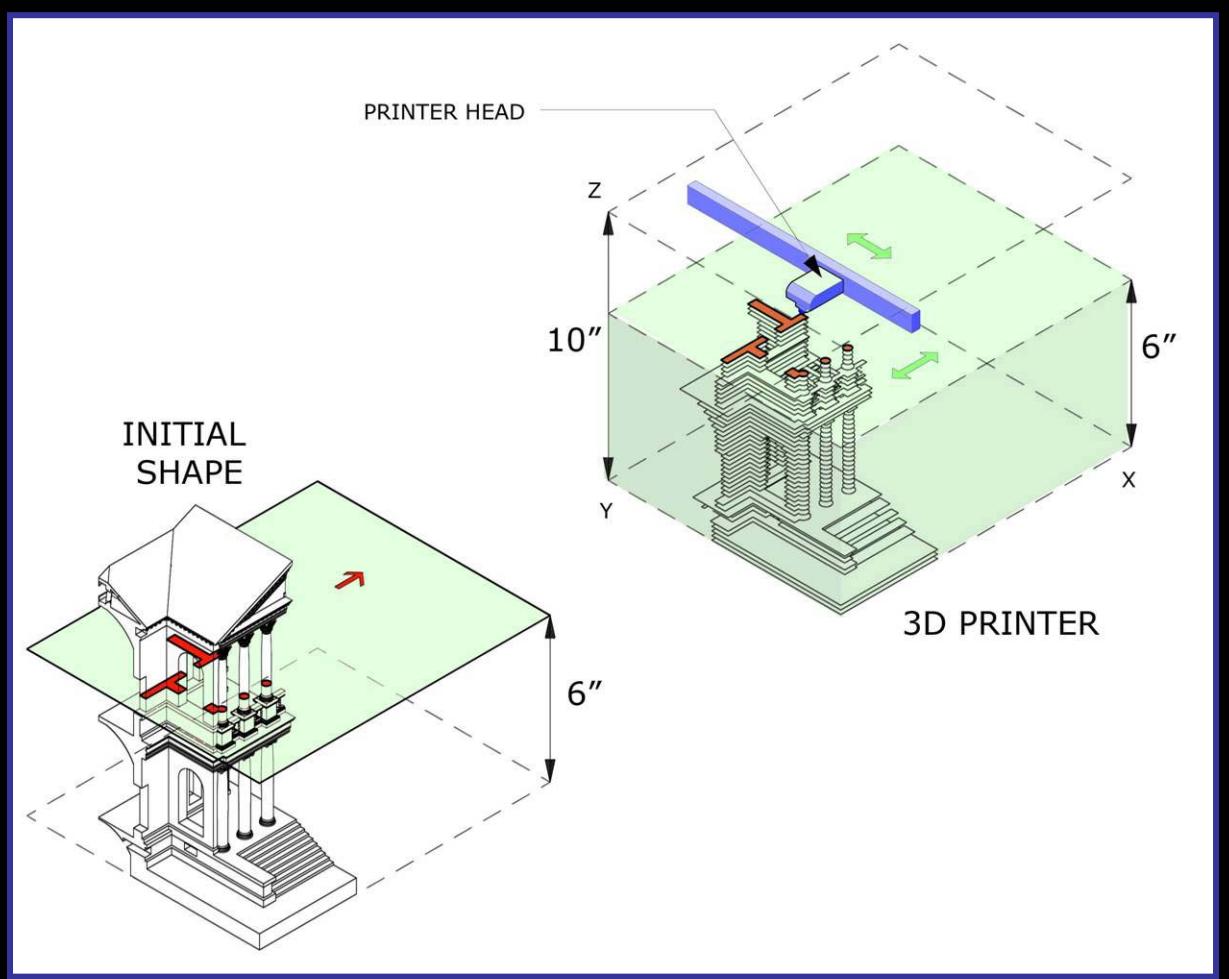

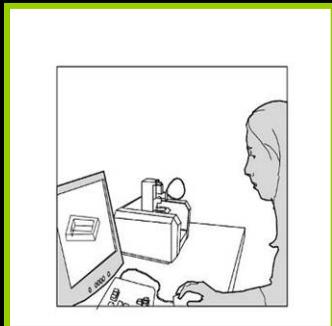

↓ Scale Objects : 6

Inspiration

Computing a model

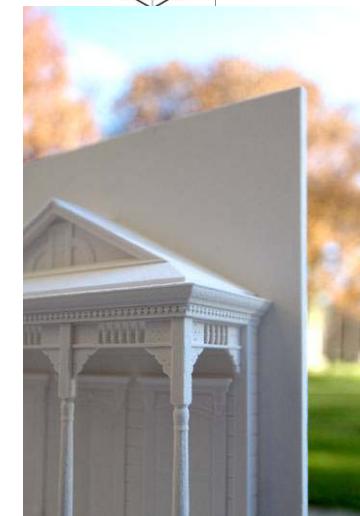

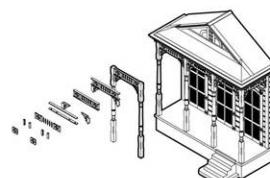

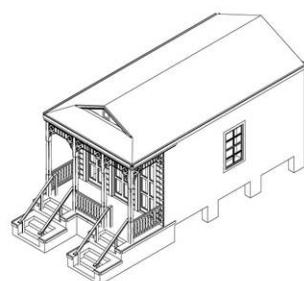

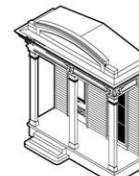

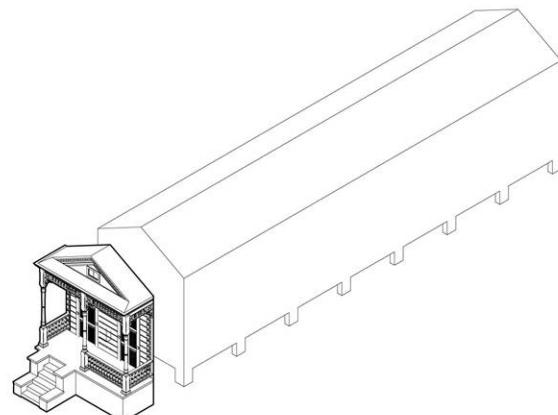

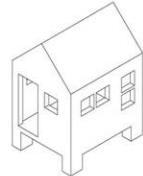

1. Precise measuring
2. Manufacturing Layered
3. Automated Assembly

Production: Design

(*Design Grammar*)

Step 1

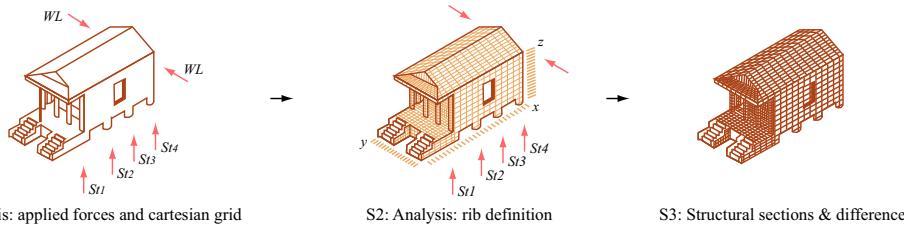

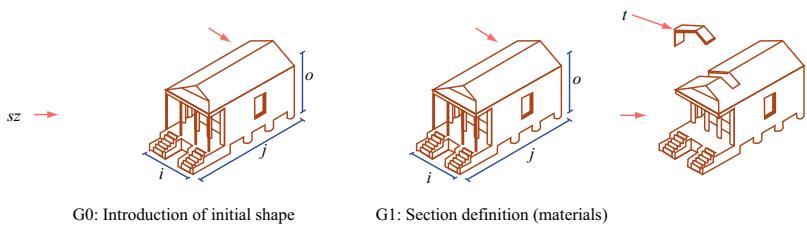

Stiny, G., *Palladian Grammar*, Environment and Planning B, Vol. 1975

Duarte, J., *Siza Grammar*, Environment and Planning B, Vol. 2004

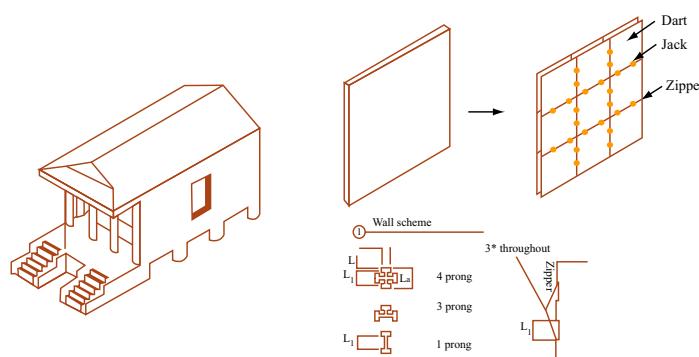

Production: Product Modeling

(Construction Grammars)

Step 2

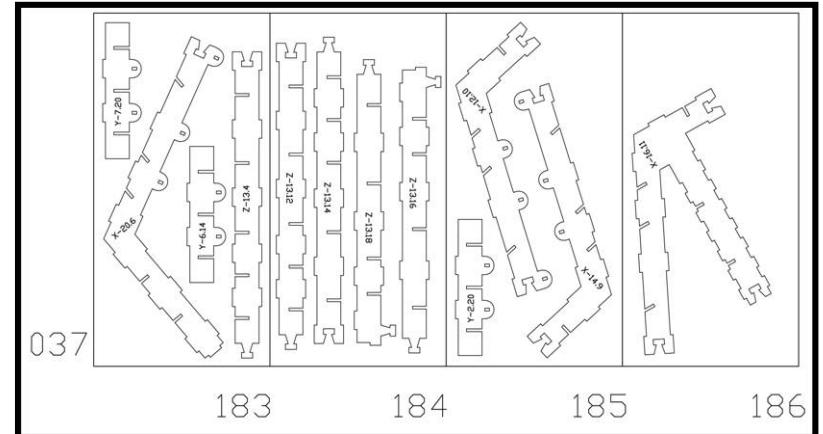

Figures by MIT OpenCourseWare.

Production: Manufacturing

(Computing for manufacturing)
Step 3

On-Site: Structure

(Assembly Only)

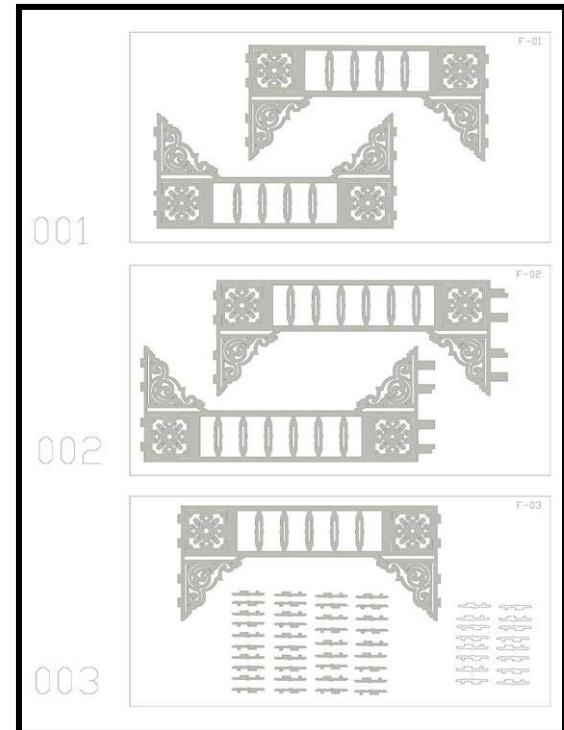

Step 4

On-Site: Ornamentation

(Multi-lateral Layering)

Step 5

Design and Machines
